

# Post Order Form - Turning

Company Name:	
Contact Person:	Phone:
Email:	Date:

*All posts start off as Basic posts. Adding additional capabilities will increase the level of the post. (Although a machine may have more than one additional feature, multiple upgrades of the same type does not push the post past that level.)*

1. Machine Make and Model:

2. Control Make and Model:

- |  |    |  |
|--|----|--|
| 3. Does your machine support any rotary axes?  | NO | YES <i>(If Yes, upgrade this post to Basic Plus)</i> |
| a. Are any of the rotary axes on the Turret or Milling Head?   | NO | YES <i>(If Yes, upgrade this post to Standard)</i>   |
| b. Does your machine support 5-axis simultaneous machining?  | NO | YES <i>(If Yes, upgrade this post to Standard)</i>   |
| 4. Does your machine support Utility Operations (for example: Tailstock, Part Catcher, Steady Rest, etc.) that you would like you post to support?   | NO | YES <i>(If Yes, upgrade this post to Standard)</i>   |
| 5. Does your machine support two or more Part Spindle/Sub Spindles?  | NO | YES <i>(If Yes, upgrade this post to Standard)</i>   |
| 6. If your machine supports Renishaw Inspection Plus probing (or other probing macros), your post can be upgraded to support the GibbsCAM Probing Module. Would you like your post to support Probing? | NO | YES <i>(If Yes, upgrade this post to Standard)</i>   |
| 7. Some machines support a second Toolgroup (a Lower Turret or Right Turret). These machines are often called "Twin Turn" machines. Does your machine support a second Toolgroup?                      | NO | YES <i>(If Yes, upgrade this post to Advanced)</i>   |
| 8. Some machines support a third or more toolgroups (three or four turrets). Does your machine support more than 2 Toolgroups?   | NO | YES <i>(If Yes, upgrade this post to Ultimate)</i>   |
| 9. Swiss machines are in category to themselves. Is your machine considered a Swiss machine?   | NO | YES <i>(If Yes, upgrade this post to Ultimate)</i>   |
